VIRGINIA GUARD SPEND NIGHT ON BATTLEFIELD

Two thousand Virginians, some of whom are descendants of the soldiers in the Army of Northern Virginia that encamped there nearly 91 years ago, spent Sunday night along W. Confederate Ave.

The men, members of the 176 Regimental Combat Team of the Virginia National Guard, left this morning at 6:30 o'clock enroute for their summer encampment at Indiantown Gap.

More than 400 trucks and 1,000 "pup tents" lined a mile long stretch of W. Confederate Ave., from Longstreet's headquarters to near the Army.

Many of the guardsmen, changing from fatigues to more formal uniform, "invaded" Gettysburg for the evening.

The contingent, under command of Lt. Col. Arnold Ellis, arrived about 5:30 o'clock Sunday evening and immediately set up camp. At Gunnet's Battery the Confederate flag was unfurled from a home-made flagstaff.

Guard Opens Armory

Fatigue clad Virginians looked with reverence on the Confederate statues along the section from which Pickett's 15,000 men started on their fateful charge on the afternoon of July 3, 1863, and looking toward the Union line joked of what the combat team could have done with its modern power against the entrenched forces of Meade.

The rivalry of long ago was forgotten. The local National Guard Unit of the 104th Armored Cavalry, a strictly "Yankee" outfit, opened its armory for water and facilities for the "Confederates."

The units nearest the Longstreet's headquarters climbed in droves to the top of the observation to catch a glimpse of President Eisenhower's farmhouse a few hundred yards away. Others took advantage of swings and "soda pop" at Swope's Souvenir stand at Longstreet's headquarters.

And some seemed to have fared well with watermelons along the way. At least there seemed hundreds of guardsmen gathered in small groups around a number of the luscious fruit.

Firemen Extinguish Car Blaze On Sunday

The Gettysburg Fire Company was called Sunday evening about 8:30 o'clock when a car owned by Charles Rice, Steelton, caught fire along the Emmitsburg Rd. Fire was confined to emergency brake linings and the floor mat.

It was the first local fire call for the company since April 24. Their most recent previous call was to Franklinton on May 13. Sunday's alarm was the 45th so far this year.

CD OFFICIALS LAUD COUNTY'S RAID RESPONSE

Burgess W. G. Weaver, Adams County Director of Civil Defense, reported that public response to this morning's air raid exercise was "excellent and cooperation fine throughout all of Adams County." Sgt. Joseph Temple of the state police announced similar response on the roads patrolled by his six man staff.

According to Weaver, the yellow alert was received over the state wide bell-and-lights system at 9:30 E.D.T. Central county defense headquarters in the Gettysburg Fire Company then alerted all 22 stations throughout Adams County to activate auxiliary police and those responsible for sounding the alarms.

The red alert was received at 10:01, at which time sirens and whistles were sounded to stop all traffic and direct the public to safe cover. In Gettysburg the fire company sirens and whistles from the Gettysburg Furniture factories, the Adams County Novelty Company, and Victor Products sounded the alarm. Central CD headquarters contacted all 22 county stations with radio messages.

The white or "all clear" alert sounded at 10:10.

Full Cooperation

Contacted for information on the Adams County response Burgess Weaver was able to report to Harrisburg Civil Defense headquarters that on the basis of his contacts with county stations and reports from local and auxiliary police, "Adams County had responded in fine fashion with full cooperation."

During the alarm, Explorer Scout William Swisher served as messenger for CD headquarters at the engine house and was dispatched on several messages. Other scouts including: Frank Skidmore, Roy Goldsmith, Robert Zhea, Fred Smith, Ronnie Stokes, Phil Scott, Harvey Bollinger, Crosby Hartzell, John Fisel and Roger Miller, took up posts on the town perimeter to check the clearness with which alarms could be heard at various points. Their reports indicated that the Gettysburg alarm system was good and that either whistles or sirens could be heard clearly at all spots.

The CD Welfare unit under the direction of Attorney John A. MacPhail, reported a call from Harrisburg headquarters on facilities activated and on post. Weaver reported that MacPhail's unit was prepared to handle 3,000 refugees from their headquarters in room 6 of the court house.

Court Adjourned

For Mrs. Smith, Sunday permitted a return visit to the Arendtsville Lutheran Church, where her

parents, John and Anna Maria (Schlusser) Hoffman, who farmed about halfway between Arendtsville and Wensville, her brother, Daniel Hoffman, and the other children in the family regularly attended services.

About 1892 the family switched to the newly established Wensville Lutheran Church. As one member of the family expressed it Saturday: "One Sunday grandfather just told the family they were going to Wensville and that's where they went thereafter."

BACCALAUREATE SERVICE HELD AT EMMITSBURG

Rev. Gideon Galambos, pastor of the Emmitsburg Presbyterian Church, told the members of the 1954 Emmitsburg High School graduating class at a baccalaureate service Sunday evening.

"While you are building for tomorrow be sure that at the same time you build for eternity," he said.

He reminded the graduates that when they were born their parents wondered: "What will happen to my child?" even as a "great unseen hand" was shaping their destiny. Rev. Galambos said credit for the development of a child should go both to the teacher, "who gave knowledge," and the parent, "who gave love," but that behind all of the success is "the great unseen hand."

Like Sparkling Jewels

The speaker declared, "As I look at you I am reminded of 13 sparkling jewels in a setting of parents, friends and relatives. Always stay like those sparkling jewels. When you have done something wrong admit it. God will always have the answer and the forgiveness, and therefore you will always be building for eternity."

The Rev. Edmund P. Welker, pastor of the Reformed Church, read the scripture lesson. The prayer was conducted by the Rev. Philip Bower, pastor of Elias Evangelical Lutheran Church. The selection, "Evening Prayer," was given by the Presbyterian Church Choir, and Ira B. Wilson and Mrs. John Spangler sang "Trust in Him."

ONE HUNDRED YEARS AGO

Strawberries are but three cents a basket and a drug at that, in the City of New York. The markets are filled with fruits, but the presence of the cholera checks the demand, and makes prices cheap.

Large Block Of Granite: On Saturday a large and most beautiful piece of granite was hauled through our streets by Mr. Nicholas Weaver, intended for a platform or top step to the main entrance of the new jail at York, quarried and drilled by our enterprising fellow citizen, Mr. Colomoni Powers, and which we think deserving of special notice. Its dimensions are: Length, twenty feet and six inches; width, three feet and four inches; and thickness, seven and a half inches. Its weight is about eight thousand five hundred pounds, and its value is two hundred dollars. Builders in other places are hereby informed that we still have plenty more of the same sort left awaiting their orders.

On the 8th inst., by the Rev. P. Scheurer, Mr. John Little, of Petersburg (Y.S.), to Miss Elizabeth Trone, of Hanover.

On the 6th inst., by the Rev. W. F. Colliflower, Mr. Daniel Reed, to Miss Elizabeth R. Martin, formerly of Adams County.

Struck by Lightning: During the thunder storm of Monday evening, the dwelling of Mr. Samuel Deardorff, near Conewago Creek, between Heidlersburg and Huntersburg, was struck by lightning, and the whole family, consisting of Mr. D. and his wife and several children, were prostrated by the shock. They soon received and discovering smoke in the house, search was made for the cause, and upon proceeding to the garret, a bundle of flax was there found to be on fire. It was extinguished. A dog lying on the porch, only six feet from the apartment occupied by the family, was instantly killed.

Corpus Christi: The Festival of Corpus Christi, or the Institution of the Blessed Sacrament, was observed with appropriate ceremonies by the Catholic church on Thursday. At Conewago Chapel a large crowd was in attendance, estimated at fully 2,000. The procession moved from the church at 8 o'clock in the following order: cross-bearers and acolytes, school boys and girls with banners, four ladies with statue of Blessed Virgin, banners of St. Joseph's Academy, Sisters of St. Joseph, Conewago Choir, censer swingers and bell ringers, Revs. Father Enders and Father Manns with the Blessed Sacrament, under a canopy carried by four gentlemen; lastly came the congregation, reciting prayers. The altars were tastefully decorated with flowers. The altar, which is known as "Miss Sallie's," as a tribute to its founder, Miss Sallie Lilly was especially grand and artistic.
The procession returned at 10

Today's Talk

THE OTHER FELLOW'S SHOES

The indispensable man does not exist. Imitations of him, however, can be found by the dozen! No matter how big a job a man may fill, there are always those who claim that they can fill it better. When a great man dies, cartoonists often draw a pair of shoes, with the caption underneath, "Who can fill them?"

No one can "fill the shoes of another" as the saying goes, but he can fill his own shoes and do a distinguished job at it. We cannot take the place of anyone, but we can do our best to carry on the work of another so as to honor the memory of that one. We best not bother about even trying to fill the shoes of another, but proudly fill the shoes that already fit us.

Continual self-improvement and individual progress are what all of us should seek, day in and day out. The other fellow's shoes are not going to be of any help to us who have a carefully worked out plan and purpose. We all are inspired by an independent mind, industry, integrity, and courage. We can well imitate a person with these qualities. But we cannot think their thoughts for them. So what good would it be to own the shoes that they wear?

The self-reliant person can always be happy and hopeful, for he continually challenges himself. He can think as he chooses. He makes mistakes and learns from them. His heritage of freedom fills him with pride. He is forever investing in friends. It makes him happy to see others acclaimed. Such a figure is a community asset, and often a nation's.

The Creator meant that every human being should be born free, with different gifts so that the humblest might aspire to anything within his possibility. Our own shoes are the only ones made to fit our feet.

Tomorrow Mr. Adams will talk on the subject: "A State of Mind." Protected, 1954, George Matthew Adams Service

THE FLAG
Glorious banner of the free,
Symbol of the brave,
Forever may we steadfast be;
Forever may it wave.

Flag of everything that's fair,
Starry banner bright,
Flag of hope where men despair,
Flag of truth and right.

Flag of faith and evening prayer,
Flag of church and school,
Flag of home and all that's there
Under freedom's rule.

Flag of childhood's eyes aglow,
Flag of mirth and song,
Countless birthdays may you know
Through the ages long.

Littlestown has organized a fire company with the following officers: President, Henry S. Klein; vice president, Lewis H. Shell; secretary, Dr. E. F. The following ticket was nominated: District Attorney, Attorney Wilson; Director of the Poor, George Lough; Jury Commissioner, Ex-Sheriff Jacob Klunk.
Thomas G. Neely, Esq., was elected chairman of the county committee. We listened for the resolutions but did not hear them, and are consequently unable to announce the principles upon which this ticket asks popular support.

Hood Of Silence Over Schine Is Mystery In Army Hearings

By JAMES MARLOW

WASHINGTON (AP)—Nothing is more extraordinary, in the extraordinary hearings on the Army-McCarthy fight, than the sudden hood of silence pulled down over Pvt. G. David Schine.

The Republicans won't call him to testify or be cross-examined. Yet, unless that happened, the public could not possibly learn the whole story of the fight. It can't be learned now, unless Schine formally asks to testify or the Republicans on the hearing subcommittee change their minds.

The Republicans on the subcommittee outnumber the Democrats 4-3. They voted solidly, 4-3, to keep Schine off the witness stand.

Limit Witnesses
Their reason? They said they wanted to limit the number of witnesses in order to speed up the hearings and get them over, perhaps this week. The Democrats protested but were outnumbered. Now the public will get no chance to find out through questioning of Schine himself just how much he knows about communism or how he developed his interest and his desire to combat it.

He was brought into the subcommittee staff by his friend, Roy M. Cohn, chief counsel of the staff and one of the principals in this case. Last spring Cohn and Schine visited Europe together to investigate the government's overseas information program.

And it was Cohn who repeatedly asked for passes for Schine to help, he said, the McCarthy staff clean up some unfinished business on which Schine was specially informed. Both Cohn and McCarthy praised Schine.

What Are The Facts?
What are the facts about him? Neither the seven senators on the subcommittee which must judge this case nor the public watching it on television can form their own opinions—based on firsthand, detailed information brought out in direct questioning of Schine—on such obvious questions as these:

What preparation did Schine have for this job with McCarthy's subcommittee which gave him the right to dig into the operations of the government and its employees? Were his knowledge and his ideas sound? Or was he just a sophisticated busybody who thought he had some answers?

That he thought he had some answer was made clear enough by the fact that he offered the State Department—before joining McCarthy's staff last year—a long-range plan for psychological war on communism.

The State Department rejected it. And McCarthy himself said he had never seen the Schine plan until it was introduced in evidence at the hearings last Friday.

LEWIS TO MEET IRATE MINERS

WASHINGTON (AP)—United Mine Workers President John L. Lewis will meet with Panther Creek Valley miners today over the disputed back-to-work plan submitted by Lehigh Navigation Coal Co. for reopening the company's mining operations in Northeastern Pennsylvania.

The plan is based on a promise of increased production by individual miners. It was accepted by all but one of the UMW locals in the area. That local—Tamaqua Local 1571—has picketed Lehigh operations. Other miners have refused to cross the picket lines.

The Lehigh mines were shut down May 3. On May 29 the company announced its terms for reopening the mines, but has made

Lewis, who had declined an invitation to go to the anthracite fields for a talk with the miners, is reported to have sent a strongly worded letter ordering them back to work. The letter reportedly approved the company program as being within the terms of the existing contract.

Littlestown PIANO RECITAL GIVEN FRIDAY

A piano recital was presented on Friday evening in the Littlestown High School auditorium by the pupils taught by Miss Mary Rita Redding, Charles St., with a large number of parents and friends in attendance. The stage was decorated with balloons, palms, cut flowers and two poles, to represent a circus ring, in keeping with the "circus" theme of the recital. Each character appeared in the costume of a circus entertainer during the program which follows:

"At the Circus," duet, Darlene DeHoff and Wanda Pettyjohn; "They're Off," Nadine DeHoff; "Song of the Merry-Go-Round," Linda Lain; "Raindrops on the Roof," Evelyn Koons; "Remember Waltz," Diane Crouse. The above selections were played prior to the opening of the curtain, which revealed Trombone Sammy asleep at the piano, in the person of Eileen Crouse, who upon being awakened by the troop leader played "Trombone Sammy"; "Tumbling," by the Treble Clef Clown, Judy Shomper, was omitted from the program as the student injured herself and was unable to appear; "Popcorn," by the popcorn man, James Bowersox; "The Juggling Clown," by the Bass Clef Clown, Wanda Pettyjohn; "The

Musial And Haddix Combine Talents Sunday To Give Cards First Double Win Of Season

By JOE REICHLER
AP Sports Writer

Imagine where the St. Louis Cardinals would be today without The Man and The Kitten.

The Man, of course, is Stan Musial, the greatest hitter in the National League. The Kitten is Harvey Haddix, the best pitcher in the senior circuit.

Stan the Man and Harvey the Kitten combined their talents yesterday to give the Cardinals their first double-header victory of the season. Haddix hurled his second straight shutout and his 10th victory as the Cards defeated Pittsburgh 5-0 in the first game. Musial, who drove in two runs in the opener with a pair of singles, snapped a 3-3 tie in the second game with his 21st home run. The Cards went on to win 5-3.

The double victory moved the Cardinals into fifth place but they still trail the league leaders by 6½ games. The Brooklyn Dodgers and New York Giants, tied for first place, swept their double-headers.

Dodgers Take Pair
Scoring all their runs in the seventh inning, the Dodgers overcame a 4-0 deficit to edge out Cincinnati 6-5 in the opener and came back to run over the Redlegs 14-2 in the nightcap. The Giants thrashed the Cubs 9-3 and 9-4, breaking through for six runs in the 11th to snap a 3-3 tie in the first game. The twin triumphs enabled the Dodgers and Giants to open up a 4½-game bulge on their nearest pursuers—Milwaukee and Philadelphia. The Braves tied the Phils for third place, defeating them 9-5 for Warren Spahn's seventh victory.

Cleveland used the lowly Boston Red Sox to boost its American League lead to 1½ games over the Chicago White Sox and 3½ over the New York Yankees. The Indians' 4-1 and 9-1 triumphs ran their latest victory string for four in a row.

Ninth For Trucks
After dropping their sixth straight decision to the Yankees, 4-2 in the opener of a double-header, the White Sox bounced back and thrashed the world champions 8-0. Virgil Trucks turned in his ninth triumph in the nightcap. The Philadelphia Athletics, who had been fighting among themselves, decided to carry some of it to the opposition and as a result captured two come-from-behind victories from the Detroit Tigers 4-3 and 6-4. The double win moved the Athletics out of the cellar only half a game behind the sixth-place Baltimore Orioles.

Bob Porterfield shut out Baltimore 4-0 after the Orioles had clubbed five Washington pitchers for 14 hits to take the opener 6-4.

ORIOLES GIVE PLANS FOR KID DAY PROGRAMS

The Baltimore Orioles have set up a plan for allowing groups of children to attend games as guests of the management. Youngsters of grammar school age who belong to organized groups such as Cub Scouts, Little League teams, church Sunday School classes, and organizations like the YMCA and the CYO, will be able to enjoy big league baseball through the cooperation of the Orioles and under the supervision of their sponsoring organization.

Publicity Director Dick Armstrong reports that the requests have been pouring in from groups throughout Maryland and from the neighboring states of Pennsylvania, Delaware and Virginia.

Procedure Outlined

A definite procedure has been set up for handling the thousands of youngsters who are expected to take advantage of the Kids Day program. When a request is received the organization is sent a letter listing the dates which have been set aside as Kids Days. The group is asked to select a date and notify the Orioles as to the number of adults and the number of children who will attend. The adults will be expected to pay the regular general admission price.

A letter is then sent by the club with complete instructions, indicating the gate to be used, and so on. The only condition which the Orioles have imposed upon the groups who attend is that there be at least one adult for every twenty-five children. This is so that the boys and girls will be adequately supervised.

The following are the dates that have been designated as Kids Days: Washington, June 19, Saturday; Philadelphia, June 26, Saturday; Washington, July 29, Thursday; Boston, August 7, Saturday; Chicago, August 19, Thursday; New York, September 9, Thursday; Washington, September 11, Saturday; Chicago, September 25, Saturday.

PETE COOPER WINS HIS 1ST
VIRGINIA BEACH, Va. — Pete Cooper, 39-year-old mild-mannered veteran of golf, scored his first victory of the year in a Professional Golfers Assn. tournament here yesterday when he won the \$15,000 Virginia Beach Open.

He picked up top money of \$2,400. He was the only player in the 72-hole scramble over the par 69, 6,065-yard Cavalier Yacht and Country Club layout who fired four sub-par rounds. He shot 67-64-64-68 for a 13-under par 263.

Cooper figures he was "a little lucky" in beating out Tommy Bolt of Houston, Tex., and Doug Ford of Klamath Lake, N.Y.

Art Wal of Pocono Manor, Pa., and Freddie Haas Jr. of New Orleans posted four-round totals of 266 for a fourth-place tie. Mayfield, George Fazio of Clementon, N.J., and Paul McGuire of Wichita, Kan., all finished with 269 for a sixth-place deadlock.

Garden And Building News

Five Rooms Two
Bedrooms Six
Closets 22,500 ft.
Cubage, House 6,800 ft.
Garage 43' x 26'

This modified ranch house has five rooms plus a breezeway or screened porch that connects the house proper with the two-car garage. If you want to have your laundry on the first floor rather than in the basement, you can easily have this porch made into a laundry or utility room.

Overall measurements of "The Ferncrest" are 43' x 26'; thus, you can build this handsome, thoroughly modern home on a 65 foot lot. Cubage of the house is 22,500 feet; cubage of the garage is 6,800 feet.

Shingles are suggested as the ideal exterior finish because they seem to so perfectly suit the home-like qualities of "The Ferncrest." If you want your home to have an especially neat appearing exterior as well as one that will be in good taste in any location paint the

shingles white and rely upon blinds and roofing to add that all important and distinctive dash of color. Do you have to stick closely to that building budget? Well, if you do, you can still call "The Ferncrest" your home. The house proper can easily be built as the first stage of construction with the porchway and attached garage added at some later date, when more funds are on hand.

If you have no need for a two-car garage you can save building expenses by having a one-car garage constructed instead. However, make such arrangements with your builder

before construction work is started. And, if you do plan to build in stages be sure to obtain a large enough lot to hold the house and attached garage.

Seven good sized, centrally located closets provide an abundance of storage space in "The Ferncrest." To obtain a really safe off-season storage place for fine woollens and blankets you can have the spacious closet opening on the central hall opposite the linen closet lined with cedar. This is not an expensive undertaking and can be performed most easily when the house is constructed.

Only the heating plant will have to be installed in the basement of "The Ferncrest," if you have the laundry on the first floor. Under

CARNEY WANTS "LINE" DRAWN

WASHINGTON (AP)—Adm. Robert J. Carney voiced support today for the idea that a line should be drawn beyond which the free world should not allow further Communist aggression.

Noting that there is a limit to the world's total human and material resources, the chief of naval operations said every gain scored by the Soviet orbit "is not only an addition to their potential, but it's a double addition, because something comes out of our hide ... every time that that happens."

Carney was asked in a copyrighted interview in the magazine U.S. News and World Report: "Must a line be drawn beyond which we won't permit the other side to make gains?"

"That's a tough question," he replied, "but the alternatives, as I see it, if this continues, are the possibility of a measure of defeat or taking a stand to prevent that defeat with timely action."

You can use a 10-inch narrow ham slicer not only for slicing ham but for cutting cheese.

A glass measuring cup that is graduated below the rim is fine for liquids to avoid spilling.

the living room is the selected location for the heating plant. And, should you prefer a basement laundry, place it under the kitchen. Be sure to provide bulkheads for safe and easy access to the yard from the basement.

Let Garden Grow Thirsty Then Give It Big Drink

Canvas Hose Which Leaks Through Mesh Spreads Water Evenly Over Garden.

Many traditional gardening practices have been vindicated by researchers who find that experience often taught sound methods, even though the reason for them may not always have been clearly understood.

Veteran gardeners, for example, have long quoted the maxim: "Give a plant a drink when it is dry." In other words do not keep the soil constantly wet, but let it get thirsty between drinks. This practice finds endorsement from the latest research.

A good soil holds both water and air at the same time. These are held in spaces between the soil particles, called "pores." When there is an excess of water, air is driven out, and the plants suffer for lack of it. This occurs in gardens when water stands on the surface, and is the reason why quick drainage of excess water is important.

Lack of water, on the other hand, is also harmful to the plants. A balance between air and water must

be maintained. A plant will make the best root growth when it is drying the soil down. When the soil is soaked, and the excess drains away quickly, fresh air enters the soil to take the place of the water. The roots reach out for water as the supply diminishes, and vigorous growth results.

But watering should be thorough enough to wet the soil as deep as the roots go, at least. This cannot be done by sprinkling a brief period every day; that is bad watering practice because it moistens only the top few inches of soil and encourages root growth near the surface where the soil dries out quickly. The soil must be soaked deeply whenever rainfall is insufficient to provide abundant water. That means, when less than one inch each week falls on the garden in summer time.

Let the hose run without a sprinkler, so that the water falls upon a board which scatters it and prevents washing out a gully, or use a canvas hose which leaks all

along its length, and serves as a portable irrigation ditch. In growing melons and tomatoes, many amateurs find that by sinking a tile into the ground near each hill, before the seed is sown, they can simplify the task of watering. Water poured into the tile is carried immediately down to the deepest roots, and this often results in exceptional growth.

STATE HIGHWAY DEATH DECLINE LISTED FOR '53

HARRISBURG (AP) — The State Revenue Department today thanked "An Act of God" for a decrease in Pennsylvania's highway fatalities last year despite a greater number of accidents.

"Considering the increase in the total number of accidents during 1953, it was probably an Act of God that more persons were not killed," the department declared in its first official breakdown of 1953 accidents.

The Bureau of Highway Safety, which issued the report, said 1,643 fatalities occurred on Pennsylvania roads—37 less than the previous year. The number of accidents of all kinds, however, rose from 126,820 in 1952 to 129,791.

Accident Chances Increased
The chances of accidents increased, also, the Bureau noted, because of increases in numbers of registered vehicles, drivers and the estimated mileage for the year. Fatalities on the Pennsylvania Turnpike, however, climbed to 91—eight more than in 1952. Turn-

pike fatalities are not reported in the Revenue Department's figures. The prospect is brighter on the turnpike this year with fatalities totaling 25 so far compared to 45 for the same period last year.

Saturday Most Dangerous
The Revenue Department's statistics showed that the most dangerous time on the highway is between 4 and 6 p.m., when 16 per cent of all accidents occur. The most dangerous day is Saturday, when 20 per cent of all accidents happen.

In 1953 fatal accidents, crashes between two vehicles led with 530 deaths. Pedestrians killed totaled 528, with children and old people making up the bulk of the casualties.

Passenger cars made up 87 per cent of all the vehicles involved in crashes and accounted for 78 per cent in fatal accidents.

Commercial vehicles accounted for 11 per cent of the vehicles in accidents and 20 per cent of the fatalities.

HAMBURG HOLDS AA AMMUNITION FOR GUATEMALA

BONN, Germany (AP)—Six tons of Swiss anti-aircraft ammunition being shipped to Guatemala has been held up in Hamburg, the U. S. High Commission announced here today.

The 20 mm anti-aircraft shells were to have been sent to Guatemala in a German ship, but the West German government intervened at the request of the U. S. High Commission and the shipment was detained in Hamburg, an American official said.

The U. S. government regards shipments of arms to leftist-leaning Guatemala as a threat to the security of the Panama Canal.

U. S. authorities throughout the world have been ordered to prevent the flow of arms to the Central American country following the delivery recently of a 10 million dollar shipment to Guatemala from Poland aboard a Swedish ship.

The U. S. official here said the ammunition reached the free port of Hamburg in transit for Guatemala May 20. The U. S. High Commission asked the federal government to prevent it from leaving.

The official said there was nothing clandestine about the shipment. It was documented for transit through the free port in the normal way.

He disclosed that a consignment of pistols from Prague to Guatemala got through unhindered in March before U. S. authorities had been alerted to prevent such shipments.

degree murder Saturday. During the four-day trial Smith testified his wife had been faithful and that he shot her "in a jealous rage and under provocation."

Mrs. Smith was shot six times last May 4 while she was on duty as a gate crossing watchman for the Reading Co. She died five days later in a hospital.

Sentencing was deferred and Smith's counsel was given five days in which to file motion for appeal.

NEW YORK (AP) — The New York Times today said that Maj. Gen. Kenneth D. Nichols, general manager of the Atomic Energy Commission, has drafted his recommendation in the Oppenheimer security case.

"It supports the Gray board's finding that Dr. J. Robert Oppenheimer is 'loyal' but should not be retained as a consultant to the commission," a Washington dispatch to the Times by James Reston said.

ROBERT YOUNG TAKES CONTROL OF NYC TODAY

ALBANY, N.Y. (AP)—Financier Robert R. Young takes control of the New York Central railroad today.

That will become official when election inspectors present the tabulation of votes cast at the annual meeting of stockholders May 26.

There has been no formal announcement yet, but an authoritative source said Friday that the Young forces have ousted the present management headed by President William White by a margin of 1,070,000 shares. And there has been confirmation of this from a leading Young supporter.

The End For White

For White, it will be the end of the line on the Central; he has said repeatedly that he would resign from his \$120,000-a-year job if Young won the battle for control.

Results of the long tabulation will be announced at the office of the railroad's secretary in the

Mendes-France Agrees To Try To Form New French Cabinet

By PRESTON GROVER
PARIS (AP) — Pierre Mendes-France, who wants to negotiate with Ho Chi Minh to end the war in Indochina, agreed today to try to form France's 20th postwar Cabinet.

Many political figures doubted whether the 47-year-old economic and financial expert could get a majority in the divided National Assembly, which calls for cutting down expenditures in Indochina and slowing down France's military buildup in Europe.

Mendes-France was nominated last night by President Rene Coty to succeed retiring Premier Joseph Laniel, defeated Saturday in a National Assembly confidence vote. The President also accepted Laniel's resignation.

Delayed Acceptance
Mendes-France is a leader of the Assembly's Radical Socialist (moderate) bloc, which was credited with bringing down the Laniel government. Following a normal procedure, he was the first person called on to try to form a replacement.

Coty delayed accepting Laniel's resignation for a day. It was believed he did not want France to be without a government over the weekend in case important decisions were needed concerning Indochina.

The new Premier-designate now must consult various party leaders in an attempt to rally sufficient support to ensure his confirmation by the Assembly. He failed by 13 votes to gain confirmation as premier during last summer's 37-day government crisis. That crisis was finally resolved by the selection of Laniel, who served just two weeks short of a year.

Sharp Critic Of Laniel
Mendes-France has been a sharp critic of the Laniel administration. He has insisted that France must take the best bargain possible with the Communist-led Vietminh in Indochina and concentrate on building up her strength in Europe.

He also is a staunch advocate of cuts in military spending and government economy as a way to get the nation back on her financial feet. He insists that only after France has a healthy economy can she make her full contribution to Western defense.

Formidable Task
In seeking Assembly confirmation as premier last year, Mendes-France said he would support the European Defense Community Treaty. French ratification of the pact, which would rearm West Germans in a six-nation army, has been stymied by heavy opposition from many quarters in the Assembly.

Until confirmation of a new government, Laniel and his ministers run their departments on a caretaker basis.

The task of forming a new cabinet which could win Assembly approval appeared formidable. Any such government would have to be a coalition, like all others since the war. Support would be needed from at least six parties, none of whom see eye to eye.

TWO COUNTIANS

(Continued from Page 1)
The late Frank Smith, continued on as parishioner at Wrenksville. Mr. Hoffman, the only other of the eight original Hoffman children, moved to Arendtsville and transferred to the Lutheran church there.

Mr. and Mrs. Hoffman and Mrs. Smith were among the worshippers Sunday at the Children's service at Arendtsville Lutheran.

Mrs. Smith taught for a half century at Wrenksville Sunday school and still serves on occasion as a substitute teacher. A week ago when Mrs. Charles Taylor asked her to teach the ladies' Bible class, of which Mrs. Smith is a member, she at first demurred on the grounds of "being too old." Finally she agreed and did a good job of teaching" according to reports from Wrenksville.

For a half century at Wrenksville Mrs. Smith was teacher of the primary department now taught by Mrs. Ralph Stoner.

Mrs. Smith's brother, Daniel, has been a Sunday School teacher for more than 60 years, currently teaching what he terms a "class for the aged" at Arendtsville Lutheran. All the members of the class, with the exception of his wife, are older than he.

Mr. Hoffman recalls that he once before taught a class for elderly people, his mother being a member of that class. Mrs. Hoffman also was a Sunday school teacher for approximately 25 years, but had to give up teaching some time ago because of her health.

All are in excellent health and the conversation Sunday took up not only the last 80 years or so but also projected into the present and future.

That Mrs. Smith and Mr. Hoffman are popular with the younger generation as well as the older is attested by the comments of the younger descendants who are high in their praise of the older members of the clan.

Mr. and Mrs. Smith had no children, but reared a nephew on their farm, Robert Smith, E. Lincoln Ave.

COUPLE WED IN

(Continued from Page 1)
The best man, Rhudy and Leslie Cregger, Emmitsburg, brothers of the bride; Robert Fuss, Taneytown, brother of the groom, and Herbert Nichols, Littlestown, served as ushers.

The bride's mother wore a blue nylon dress in a floral print, white accessories and a corsage of pink roses. The mother of the groom wore a blue jersey dress in a floral print, pink accessories and a corsage of pink roses.

Reception Is Held

Carl Cregger, son of Mr. and Mrs. Wayne Cregger, was the ring-bearer. Miss Diane Badmer, daughter of Mr. and Mrs. Charles Badmer Jr., College Park, Md., and Miss Carol Cregger, daughter of Mr. and Mrs. Irvin Cregger, Emmitsburg, were the flower girls. They wore pink dresses and floral headpieces and carried baskets of rose petals.

A reception was held in the church social hall after the ceremony. Afterwards the couple left on a honeymoon of unannounced destination. As a going-away ensemble the bride wore a lavender nylon dress, white accessories and an orchid corsage. Upon their return they will live in Taneytown.

The bride is a graduate of the Emmitsburg High School and the Hagerstown Business College. The groom, who was graduated from the Emmitsburg High School, served for three years in the army. He is employed by Charles Reaver and Son, Taneytown.

Out-of-town guests were from Alexandria, Va., College Park, Bethesda, Rockville, Hagerstown and Littlestown.

PITTSBURGH'S 35-DAY STRIKE IS SETTLED

PITTSBURGH (AP)—This steel city's mass transit system returned to normal today following settlement of a 35-day-old trolley and bus strike—much to the relief of downtown merchants and thousands of commuters.

Streetscars and buses of Pittsburgh Railways Co. began rolling again yesterday after operating employees voted to accept what in effect is a 3-cent hourly wage increase. But full service was delayed due to the need for main-

tenance work on some trolley routes.

The new one-year contract, retroactive to May 1, establishes a basic pay rate of \$2.01 an hour for some 2,700 trolley and bus drivers. Old basic rate was \$1.92 an hour.

However, operators actually had been earning \$1.98 an hour with a 6-cent hourly cost-of-living raise. This increment is frozen within the basic wage structure under the agreement and workers will receive an additional cent an hour for each full point rise in the consumers' index of Pittsburgh.

No Fare Increase

C. D. Palmer, president of Pittsburgh Railways, said there will be no boost in fares since the agreement was reached "within the present fare structure." Basic cash fares are 20 cents for trolleys and

25 cents for buses.

During the strike—longest and costliest transportation walkout in the city's history—residents walked, hitch-hiked, participated in auto pools and utilized other means of transportation such as commuter trains, independent bus lines and taxicabs.

Although residents generally took the strike pretty much in stride, stores and other business establishments in the downtown area felt the walkout keenly because of a decrease in the number of shoppers.

It is estimated transit strikers lost some \$1,250,000 in wages and the company several hundred thousand dollars in revenue.

FRANCE LOSING INDIA TOEHOLD

MADRAS, India (AP)—France, fighting to hold her place in India, was reported today losing her grip on one of her tiny footholds in India.

Press reports from the small French colony of Yanam, on India's west coast, said about 200 pro-Indian demonstrators in the town of 5,800 persons had seized all public offices, hoisted the Indian flag and proclaimed French control at an end.

The report said a six-man administration council was nominated and four ministers named.

Indian Prime Minister Nehru has been demanding determinedly that

PREDICT NEW BUILDING HIGH

WASHINGTON (AP)—A government report, based upon a new look at the thriving construction industry, predicted today that spending for new construction would set an all-time record of 36½ billion dollars, the peak year so far.

The new prediction, after five months of record-setting construction activity in this year, reversed the earlier forecast made by the Commerce and Labor departments.

Last November the two government units estimated construction this year would fall about 2 percent under the 1953 record level. The dollar total predicted last November for 1954 was 34 billion dollars, 2 billion under the new forecast.

The more optimistic outlook, the report said, was based mainly on the high level of new home building.

France withdrew from Yanam and her three small colonies on the Indian coast, Pondicherry, Karikal and Mahe. Indian French talks on the subject broke up earlier this month without agreement.

Union Votes Today To Settle Strike

PHILADELPHIA (AP)—The CIO's International Union of Electrical Workers' 6,500-member Local 101 will cast secret ballots today on whether to accept or reject a Philco Corp. proposal for ending a 6-week strike.

Members of the local decided on the secret ballot in a stormy meeting Saturday after the company's terms were accepted by two other unions, one here and one in Sandusky, Ohio, representing about 1,000 Philco workers.

A union spokesman said all three

locals must approve the company offer before work resumes.

Details of the company offer were not revealed but it was reported to be a package increase of nine cents an hour. The workers averaged \$1.63 under the old contract.
